DEMAND

- **End the Afghan, Iraq Wars and Military Occupations!**
- **Concrete Steps to Abolish All Nuclear Weapons!**
- **Cut \$1.5 Trillion Global Military Spending Every Year!**
- **Free Funds For Human Needs And To Address The Environmental Crisis!**

In May, the UN will review the Nuclear NonProliferation Treaty (NPT). The nuclear weapons states have failed to meet their obligation to negotiate destroying the weapons under the NPT. Non-nuclear weapons states consider obtaining such weapons to defend themselves against aggression. To stop this madness, many political leaders are calling for nuclear abolition now. There is no time to delay.

Sign the global petition to abolish nuclear weapons to be presented in May to the United Nations:
